THE WATER WORKS BOARD OF THE CITY OF BIRMINGHAM
HISTORICALLY UNDERUTILIZED BUSINESS PROGRAM

General Mission Statement

The Water Works Board of the City of Birmingham ("BWVB") has adopted a voluntary Historically Underutilized Business ("HUB") Program designed to encourage the participation of HUB firms in construction projects and goods and services. To that end, the BWVB will not exclude any firm from participation in, deny any person benefits of, or otherwise discriminate in connection with the award and performance of BWVB construction contracts and goods and services bids based on racial, gender, social, or economic status.

It is the intent of the BWVB to foster competition among contractors, suppliers and vendors that will result in better quality and more economical services for the BWVB. Under this program, the BWVB has established a goal of 30% participation of HUB firms for services required for BWVB construction projects and goods and services. The BWVB's stated goal will not be the determining factor in construction and goods and services contract awards; rather bidders must demonstrate compliance with the Good Faith Efforts, more particularly outlined below, toward meeting said goal.

Failure on the part of a bidder to fully submit the information required herein may be considered by the BWVB in evaluating whether the bidder is responsive to bid requirements.

NOTE: If Bidder is a direct manufacturer/direct supplier of the goods or services sought in this Bid and has no opportunities for HUB participation, Bidder should fill out the Direct Manufacturer/Supplier Certification Form 6.

Program Goals

- To ensure nondiscrimination in the award and administration of BWVB construction contracts and goods and services.
- To help to remove barriers to the participation of HUB firms in receiving BWVB construction contracts and bids for goods and services.
- To create a level playing field on which HUB firms can compete fairly for BWVB construction contracts and bids for goods and services.

Definitions

1. Historically Underutilized Business (HUB): A business formed for the purpose of making a profit and is at least 51% owned, operated and/or controlled by one or more American citizens or permanent resident aliens who are: Minority Business Enterprise (MBE); Women's Business Enterprise (WBE); Disadvantaged Business Enterprise (DBE) and Disable Veteran Business Enterprise (DVBE); (herein sometimes collectively referred to as HUB).

3. Disadvantaged Business Enterprise (DBE): A business that is formed for the purpose of making a profit and is at least 51% owned, operated and/or controlled by one or more socially and/or economically disadvantaged individuals. A socially disadvantaged individual is one who has been a subject of racial, ethnic or gender bias because of their membership in a group. An economically disadvantaged individual is one whose ability to compete in the free enterprise system is impaired due to diminished opportunities to obtain capital and credit.
4. Women's Business Enterprise (WBE): A business enterprise formed for the purpose of making a profit and is at least 51% owned, operated and/or controlled by American citizens or permanent resident aliens who are women.
5. Owners of construction projects in both the public and private sector participate in the BCIA's efforts to increase the participation of HUB in their construction projects. HUB firms are certified as MBE, DBE or WBE by the BCIA and receive business counseling and technical assistance provided by the BCIA staff.

Affirmative Steps for Good Faith Solicitation

All bidders must submit to BWWB in their sealed bids evidence of the following Affirmative Steps taken to utilize HUB's. These Affirmative Steps are required methods to ensure that HUB's have the opportunity to compete for contracts with BWWB.

It is up to BWWB to make a fair and reasonable judgement whether a bidder/prime company made adequate good faith efforts. The BWWB will consider the quality, quantity, and intensity of the different kinds of efforts that the bidder/prime company made. The efforts employed by the bidder/prime company should be those that one could reasonably expect a bidder/prime company to take if the bidder/prime company were actively and aggressively trying to obtain HUB participation sufficient to meet the HUB Program goals.

Below is a list of types of steps that BWWB will consider as part of the bidder's/prime company's good faith efforts to obtain HUB participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases:

1. Ensure HUB's are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. Soliciting through all reasonable and available means (e.g. attendance at pre-bid meetings, advertising, written notices and notifying BCIA, or other available sources) the interest of all certified HUB's who have the capability to perform the work of the contract. The bidder/prime company must solicit this interest within sufficient time to allow the HUB's to respond to the solicitation. The bidder/prime company must determine with certainty if the HUB's are interested by taking appropriate steps to follow up initial solicitations.
2. Make information on forthcoming opportunities available to HUB's and arrange time frames for the submission and finalization of contracts and established delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by HUB businesses in the competitive process. This includes, at a minimum, seeking and receiving solicitations for contract bids or proposals 2 calendar days before sealed bids are due to BWWB.
3. Once the contract has been awarded, the prime company should continue to use its best efforts to further increase HUB participation toward reaching the BWWB stated goal.
4. Consider in the bidding process when competing for large contracts the possibility of dividing total requirements whenever economically feasible into smaller tasks or quantities to permit maximum participation by HUB's in the competitive process.

5. Encourage contracting with a consortium of HUB's when a contract is too large for one such firm to handle individually.
6. Negotiate in good faith with interested HUB sub-companies. Evidence of such good faith negotiations should include the names, addresses, and telephone numbers of HUB sub-companies that were considered; a description of the information provided regarding the request for proposal, request for qualifications, plans and specifications for the work selected for contracting; and evidence as to why additional agreements could not be reached for HUB sub-companies to perform the work.
7. Use the resources of the BCIA and the other resources identified above.
8. Provide documented proof of steps taken to comply with items 1 through 7 above.

Bidders/Prime companies must submit or provide the following HUB Forms as outlined below:

- 1) **Acknowledgement of HUB Program (HUB Form 1)**. All bidders are to read, sign and include in their sealed bid the Acknowledgement of HUB Program, indicating that they fully understand and will voluntarily participate in and follow the guidelines and instructions included in the BWB HUB Program.
- 2) **HUB Compliance Form (HUB Form 2)**. This form must be completed and included with all sealed bids for goods and services/public works with the BWB.
- 3) **HUB BID SOLICITATION NOTICE (HUB FORM 3)**. All bidders shall complete this form and submit to the BWB and the BCIA no later than seven (7) days after the scheduled date of the pre-bid conference. This form may be submitted in person at the pre-bid conference. Prospective bidders are to submit with their bid documents a copy of their HUB Form 3 with acknowledgement of receipt box completed by BCIA. (This form is used for Public Works bids only)
- 4) **HUB Sub-company Participation Form (HUB Form 4- (Part 1&2))**. This form gives a HUB sub-company the opportunity to describe the work the HUB sub-company received from the bidder/prime company, how much the HUB sub-company was paid, and any other concerns the HUB sub-company might have. Bidder/prime company shall provide copies of HUB Form 4 to all HUB sub-companies.
- 5) **HUB Sub-company Performance Form (HUB Form 5)- (Part 1&2)**. This form captures an intended HUB sub-company's description of work to be performed for the bidder and the price of the work proposed to be performed by the HUB sub-company. This form is to be provided by the bidder to each HUB sub-company and submitted along with the HUB Compliance Form included in the bid documents.
- 6) **HUB Direct Manufacturer/Supplier Certification (HUB Form 6)**. This form captures the direct manufacturers or suppliers of goods and services sought in the bid and have no distributors, wholesalers, retailers or other intermediaries, and thus do not have any opportunities for HUB participation in this Bid. (This form is used for Goods and Services bids only)

7) HUB Sub-company Utilization Form (HUB Form 6- (Part 1&2)). This form captures the bidder's/prime company's intended use of an identified HUB sub-company and the estimated dollar amount of the work. This form is to be completed by the bidder/prime company and submitted with the HUB Compliance Form included in the bid documents.

(This form is used for Public Works bids only)

8) Changes to Approved HUB Compliance Form (HUB Form 7). If any changes, substitutions, or additions are proposed to the sub-company identified in the bid or any other time during the work, the bidder/prime company must submit this information to BWWB for prior written approval. No changes to the sub-company can occur without the BWWB's prior written consent.

(This form is used for Public Works bids only)

9) Monthly Report Form (HUB Form 8). With each monthly pay request submitted to BWWB, the prime company is required to submit updated monthly **HUB Form 8** reports which identify HUB firms' participation. Monthly pay requests **will not be processed** without the updated list of HUB firms.

(This form is used for Public Works bids only)

10) Project Close-out Report (HUB Form 9). Upon completion of the contract and prior to final payment or release of retainage, the prime company is required to submit a **HUB Form 9** Project Close-Out Report that includes a final listing of all HUB participants on the project. The Project Close-Out Report, with documented HUB participation, is a prerequisite to process the final pay request.

(This form is used for Public Works bids only)

Sub-companies must be certified as HUBs in order to be counted toward the bidder's/prime company's HUB accomplishments.

The documentation of the good faith solicitation efforts must be detailed in order to allow for satisfactory review. Such documentation might include fax confirmation sheets, copies of solicitation letters/emails, printouts of the online solicitations, printouts of online search results, affidavits of publication in newspapers, etc. The bidder/prime company is strongly encouraged to follow up on each written, fax, or email solicitation with at least one logged phone call.

The bidder/prime company must employ the affirmative steps set out above to subcontract with HUB, even if the bidder/prime company has met its goal of HUB participation.

If a HUB sub-company fails to complete work under the subcontract for any reason, the prime company must notify BWWB in writing prior to any termination and must employ the good faith efforts described above if using a replacement sub-company. Any proposed changes from an approved HUB sub-company must be reported to BWWB on the Changes to Approved HUB Compliance Form (**HUB Form 7**) prior to initiation of the action.
